

BUSINESS INCREASE
SEEN BY EXPERTS

SO SAYS DUNN & CO.'S WEEKLY
REVIEW OF TRADE.

Productive Force Enlarged—Failures the Smallest Known in Any Quarter Since 1892—The Week's Exchanges 8.8 Per Cent Larger Than in the Same Year—The Wheat Crop.

New York, Oct. 9.—R. G. Dunn & Co.'s Weekly Review of Trade says: "While failures were the smallest ever known in any quarter since 1892, and business payments through banks the largest by \$268,000,000 ever known in September, the speculators who profess anxiety about Cuba, or fever at the south, or a municipal election, still have some influence. Yet business is still increasing. The productive force steadily enlarges, the distribution of wages affords an increasing demand for purchases, and the foundations are laid for a larger business hereafter. The week's exchanges are 8.8 per cent larger than in 1892.

"Crop reporters who have widely differed now agree in putting the yield of wheat from 580,000,000 to 590,000,000 bushels, which is nearly 200,000,000 bushels more than will be required for home use, keeping stocks as they were July 1, the lowest for seven years. With less favorable reports of yield, corn exports fall short slightly, with small difference in price. Cotton is unchanged in price, with larger consuming demand, though big crop estimates do not appear to be disputed.

"A large increase in the production of pig iron and heavy realizing sales of lots held on speculation have caused a decline of 15 cents. But finished products grow stronger, with a demand outrunning the capacity of works in operation in many branches. Building of more vessels on the lakes and sea-coast, heavy orders for sheets, bars, rods and pipe have caused advances averaging half of 1 per cent on the week on all classes.

"Wool has now reached an average of 20.37 cents per pound, a rise of 8 cents since a year ago, with a much heavier rise on some qualities. Speculative sales still account for most of the aggregate.

"Failures for the week were 213 in the United States, against 296 last year, and 29 in Canada, against 46 last year."

BISHOP MERRILL'S VIEWS.

Significant Statement by the Chairman of the Rock River Conference.

Chicago, Oct. 9.—The Rock River Methodist conference devoted almost the entire day Friday to the ceremony of ordaining ministers. During the proceedings Bishop Merrill made the following significant statement:

"There is no room in the Methodist Episcopal church for men who will not preach Methodist doctrines. If a preacher is not able to support the doctrine and the policy he has pledged himself to uphold the part of honor and manhood is to get out. That is what he will do if he has the spirit of a manly man in his heart. * * * There are no delegates in the annual conferences and, as far as I can see, no room and no need for them."

Glass Men in a Great Combine.

Columbus, O., Oct. 9.—At the meeting here Thursday of glassmen behind closed doors there was organized one of the most gigantic associations, from a commercial standpoint, that have ever come into existence. The meeting represented practically the entire glass industry of the United States. Its purpose was to bring under one head every glass manufactory in the country. Only the details of the organization remain yet to be finished, and these are expected to be brought to a close not later than next Tuesday. The president is H. Sellers McKee of Pittsburg, who is at the head of the largest glass manufacturing concern in America.

May Have to Refund Duties.

New York, Oct. 9.—Unless the courts reverse the board of general appraisers, importers whose goods were entered at the custom house on Saturday, July 24, before the signing of the tariff act, will be able to collect from the government the extra duties—amounting to perhaps \$300,000—they were compelled to pay as a result of the government's claim that the tariff was retroactive and that it took effect on the earliest possible moment of the date on which it was signed. The board sustained the protests of the importers against the position taken by the government, and instructed collectors to relinquish the entries accordingly.

Gibson Held in \$1,000 Bail.

New York, Oct. 9.—Emmet Gibson, alias George H. Sherin, was arraigned in police court Friday on the complaint of H. P. Stimpson, auditor of the Imperial hotel. Stimpson charges Gibson with passing a fraudulent check for \$640 on the hotel, besides swindling the house out of \$265 for board. His swindles, it is alleged, amount to about \$400,000. Gibson was held in \$1,000 bail and his examination fixed for Oct. 12. He declared that he was entirely innocent of the charge.

Lower the Team Record.

Glens Falls, N. Y., Oct. 9.—At the mile track of the Northern Horse Breeders' Association here Friday John

R. Gentry and Robert J. broke the pacing-team record, going the mile in faultless style in 2:08. This was done after the pair had been sent a mile in 2:11 and before the close of the day's sport. Gentry, with running mate, paced a mile in 2:03 3/4.

CECIL RHODES ILL.

Former Premier of Cape Colony in a Dangerous Condition. Cape Town, Oct. 9.—Cecil Rhodes,

CECIL RHODES, the former premier of Cape Colony, is seriously ill at Intanga.

LAYMEN FORM A UNION.

Rock River District Fewholders Hold Their First Convention.

Chicago, Oct. 9.—Laymen of the Methodist Episcopal Church have organized and go before the Rock River conference to-day to ask the ministers to vote on the question of equal representation in the general conference. The committee of five appointed will present a resolution urging conference to propose to other conferences the modification of the restrictive rules that prevent equal representation.

If this resolution is acted upon favorably it will mean that the Rock River conference is in favor of equal representation of laymen and ministers in the general conference. The matter cannot be settled, however, until the next general conference. Bishop Merrill is in favor of equal representation and it is believed a majority of the ministers in the Rock River conference will vote with him.

Our Rights Not Recognized.

Washington, Oct. 9.—That the new Spanish ministry is following the example of the Canovas ministry in one particular at least, is apparent to the officials at the state department. That one particular is in regard to this country's demand for the settlement of the Cuban question. The new ministry is following in the footsteps of its predecessor, and seeking to postpone the date when Spain shall acknowledge the interest this government has in the settlement of that question, and give some answer to the question of Minister Woodford as to when we can look for the end.

Big Day for Peoria.

Peoria, Ill., Oct. 9.—Mrs. Lydia Bradley has at last seen the fulfillment of the dream of her life. After thirty years of planning the institution founded in the memory of her husband was dedicated Friday. It was an event in which all Peoria took part. From outside the city came scores of people to do her honor. The far east contributed a large quota of visitors, and the arrivals from the south and west were numerous. Lyman J. Gage, secretary of the treasury, closed his vacation by giving the dedicatory address. He was the honored guest of the day.

Lumber Will Be Higher.

Wausau, Wis., Oct. 9.—The Wisconsin Valley Lumberman's association held a meeting in this city on Friday for the transaction of such business as changed trade conditions demanded. The questions of prices, grades, and stock were the most important subjects talked over. An average advance of 50 cents per thousand feet was agreed upon in order to meet increased wages and cost of manufacture.

Brazilian Fanatics Defeated.

London, Oct. 9.—The Brazilian legation here has received a telegram from the government at Rio de Janeiro stating that Canudos, the headquarters of the religious fanatics lead by Antonio el Consolheiro, was captured after a campaign in which over 3,000 Brazilian officers and soldiers were killed, wounded or invalidated. The dispatch adds that El Consolheiro is dead.

Plans of British War Office.

London, Oct. 9.—The St. James' Gazette says the British war office has elaborated a plan by which the volunteers of Great Britain will be liable for service abroad in case of war. Hitherto the volunteers have been liable for duty abroad only for the defense of the colonies and in extraordinary cases.

Will Give \$50,000,000.

Washington, Oct. 9.—Friday's cabinet meeting developed a confirmation of the report that the Union Pacific syndicate had agreed to increase its bid to the government to \$50,000,000, and that the attorney general, in view of this fact, had decided not to appeal the case, but to allow the sale to proceed.

MONEY IS TURNING
TOWARD OUR SHORE

NEARLY SEVEN MILLIONS ON THE WAY FROM EUROPE.

More Is To Come Next Week—United States Has Commenced To Draw Heavily From London's Supply—London and France Also To Contribute—Views of London Press.

New York, Oct. 9.—Gold is coming this way in large quantities, and it is expected that before the end of next week not less than \$25,000,000 will have been imported. There is already on the way to this country \$3,050,000, and this amount, together with that which has been imported recently, will make the gold receipts for the last ten days \$5,350,000.

The gold which has reached here since Sept. 30 amounts to \$2,300,000. Of this amount the National City Bank has imported \$1,300,000 and the Hanover National Bank an even \$1,000,000. There was ordered Friday in addition \$5,550,000.

Foreign exchange rates are considerably stronger in consequence of the demand for gold from Great Britain. It is expected also that the stream will not be confined to England alone. France and Germany both are expected to unlock their strong boxes and give back the gold which they took from the United States during the hard times of the Cleveland administration.

Additional engagements of gold are expected to be made almost hourly, and before the sailing of the steamers next week, Monday, there may be not less than \$10,000,000 on the way here. Most of the gold will be turned into the sub-treasury for examination as soon as it is received. There is always considerable loss from abrasion by the handling. All the gold which already has returned to the land of its coinage is in the very same bags in which it was exported.

Views of London Press.

London, Oct. 9.—The financial articles in the papers discuss the prospects of a rise in the bank rate if the export of gold to America continues. The Bank of England has not yet raised the price of eagles. The Daily Telegraph says: "As the metal has been shipped without showing either profit or loss, it is rather to be expected that other large sums may be deferred."

WOODMEN FIGHT ENDED.

Judge Bigelow of Whiteside Knocks Out Fulton's Last Prop.

Rock Island, Ill., Oct. 9.—Judge Bigelow administered the final knockout to Fulton's aspiration to the head office of the Modern Woodmen in the Whiteside county circuit court Friday.

In all their attacks on Judge Gest, the Fulton people have claimed that Judge Bigelow upheld their theories as to the retention of the head office. Consequently their attorney felt unusual confidence in the disposition of the two motions made before Judge Bigelow this week. These were that the rulings of Judge Gest on injunctions 5 and 6 be set aside. Both of these were overruled after argument. A motion was then made to revise all of the dissolved master in chancery injunctions, and this, too, was overruled.

Fire Threatens Ranchers.

Crown Point, Ind., Oct. 9.—One of the most disastrous marsh fires that ever occurred in the county is raging in the Kankakee marsh, which covers twenty sections of land twelve miles south of this city. The news of the fire reached here Friday, word being sent to several large ranch owners who reside here, telling them to come to the scene immediately and help save their property. John and Barringer Brown, who own big ranches there, left to fight the fire, which is in a straight line for their property. Nelson Morris' big ranch, where thousands of cattle are being fattened, is also in immediate danger.

Damage to Kentucky Crops.

Frankfort, Ky., Oct. 9.—The monthly report of the commissioner of agriculture was issued Friday. Not a county from the extreme eastern end of the state to the Mississippi river and from the Ohio river to the Tennessee line fails to report great damage to crops from dry weather. Twenty-three bushels an acre is the average yield of corn. Tobacco crops are also suffering in proportion. At the outset there was only 60 per cent of a crop, and of this 16 per cent was injured by the frost.

Prairie Fire in Ohio.

Toledo, Ohio, Oct. 9.—A disastrous prairie fire is raging near Cromers, several miles south of here. The farmers were up all last night fighting the flames. Four miles of fence has been burned, and the fire is gaining headway.

Cold Weather in Nebraska.

Omaha, Neb., Oct. 9.—A cold wave arrived Friday night and brought winter weather. The mercury has reached the freezing point all over Nebraska. A severe northwest wind prevails. All corn is long since beyond possible danger.

Ohio Village Damaged by Fire.

Gibsonburg, Ohio, Oct. 9.—Fire broke out in Zabeck's saloon at 10 o'clock Friday night. Twenty-one buildings were burned, including that in which the postoffice was located. The estimated loss is \$20,000. The insurance is light.

WEYLER THE BLOODY
HAS HAD HIS DAY

SPANISH BUTCHER IS RECALLED FROM CUBA.

Gen. Blanco Succeeds Him—Comparatively Unknown Soldier Will Represent the Liberal Government on the Island—Weyler Declares He Will Offer No Resistance to the Change.

Madrid, Oct. 9.—The cabinet decided upon the immediate recall of Gen. Weyler from Cuba. A decree will be issued appointing Capt.-Gen. Blanco y Arenas, marquis of Pena-Plata, governor-general of the island. The queen regent will sign the decree to-day.

According to El Heraldo, 20,000 reinforcements will accompany Gen. Blanco to Cuba. He will also be accompanied by Gen. Arderine as vice-governor of Cuba, Gen. Gonzale Pinais as chief of staff, and Gens. Pando, Bernal and Canella.

Capt.-Gen. Ramon Blanco y Arenas, who will succeed Capt.-Gen. Valeriano Weyler as governor-general of Cuba has had his chief administrative experience in the Philippine islands.

Will Not Resist Removal.

Havana, Oct. 9.—Gen. Weyler gives an emphatic and absolute denial to the reports that he would resist removal from his command in Cuba and in certain contingencies might espouse the Carlist cause.

The merchants of the island, according to the officials, continue to send cable messages to Senor Sagasta expressing their approval of Gen. Weyler's campaign and their entire confidence in him.

JAPS POURING IN.

Many Laborers from Japan Now on the Way to Honolulu.

Honolulu, Oct. 2, via San Francisco, Oct. 9.—Twelve hundred Japanese laborers are now on the way here from Japanese ports to fill contracts for plantation laborers, and it is asserted by a prominent Japanese in this city that about 9,000 will be shipped in here about Dec. 1.

It is claimed that if the islands are annexed in December, under the laws of the United States Japanese laborers who are here under contract cannot be forced to return to their own country upon the expiration of their contracts, as has hitherto been the practice under the laws of the republic. On the other hand, the Japanese say they will have the same rights of citizenship as will be accorded to the present citizens of the republic. For this reason every effort is being made to bring in all the Japanese possible under the contract law, and it is believed that room can be made for upward of 9,000.

Illinois W. C. T. U. Adjourns.

Champaign, Ill., Oct. 9.—The Illinois state convention of the W. C. T. U. closed Friday afternoon, after a most successful meeting. This morning was occupied by the annual memorial service, when the names of all the deceased members of the union who have died during the past year are read before the convention. The remainder of the day was occupied by hearing the last reports of committees and district president. The following resolution was passed: "Resolved, That the temple, which is known to the world over as the headquarters of the W. C. T. U., should be made a department of the Illinois W. C. T. U. work and should receive our substantial aid."

Ex-Senator McPherson Dead.

New York, Oct. 9.—Ex-Senator John R. McPherson of New Jersey died Friday night. He was born at York, Livingston county, N. Y., May 9, 1833, and removed to Jersey City, N. J., in 1859. He was a member of the state senate in 1871-3, was a presidential elector on the Tilden and Hendricks ticket in 1876, and was elected to the United States senate as a Democrat in 1877, and served until 1895.

More Deaths from Yellow Fever.

New Orleans, La., Oct. 9.—Friday was a record-breaker here. As early as 6 o'clock a major case had been reported as on Wednesday, when the fever reached for the time high water mark—forty-six cases. At the same hour there had been five fever deaths reported, with a few of the patients in a critical condition.

Mobile, Ala., Oct. 9.—There were six new cases of fever Friday.

Edwards, Miss., Oct. 9.—There have been four deaths from yellow fever Friday.

Four Killed and Ten Injured.

Monterey, Mex., Oct. 9.—Advices have reached here of a terrible accident twenty-five miles south of here. A tunnel is being constructed by the Mexican National railroad and a premature explosion of a blast occurred, killing four men outright and wounding ten others seriously.

To People Arkansas Valley.

Denver, Col., Oct. 9.—Commander Booth-Tucker will hold a conference with capitalists in New York, Oct. 18, when the last details of the proposed colony will be arranged. It is now definitely stated that 1,000 families will be placed in the Arkansas valley.

BEGIN WITH THE SUN.

Illinois Endeavorers Put in a Long Day in Christian Work.

Chicago, Oct. 9.—Illinois Christian Endeavorers got down to business yesterday morning in Central Music Hall with Dr. S. Allen Wilson, chairman of the Chicago '97 committee presiding. Rev. E. M. McMullin of Gibson City led in a devotional service, emphasizing God's power to recognize the spiritual powers in man. Henry H. Spooner of Bull's Bridge, Conn., formerly president of the Illinois union, invoked the divine guidance.

Vice-President Milton O. Naramore of the Chicago C. E. union, appearing instead of President Alfonso E. MacDonald, who is seriously ill, welcomed the visiting Endeavorers. Chairman Wilson then turned over the keys to State President Stewart, who responded to the address of welcome.

Two committees on resolutions and nominations were then appointed and will report to-day.

During the afternoon one-hour conferences were held for the workers on the lookout, social, Sunday school, prayer meeting and Christian citizenship committees, for the missionary committee and for those interested in the intermediate and mothers' societies.

Denominational rallies were held during an afternoon lull by the adherents of the Christian church and the Reformed Church.

The greatest event in the history of the Christian Endeavor convention, in point of numbers and enthusiasm, was the mass meeting in the Auditorium at night, when an audience of 6,000 listened to addresses made by Judge Charles J. Scofield of Carthage, Dr. Newell Dwight Hills, and General Secretary John Willis Baer of the United Society of Christian Endeavor.

IOWA STRIKE ENDED.

The Men Vote to Accept the Offer of Operators Until April 1.

Des Moines, Iowa, Oct. 9.—At the meeting of the miners Friday a committee on resolutions was appointed. They retired during a recess and returned with the following resolutions: "Resolved, That we allow all mines to resume work that will pay 85 cents a ton from now until April 1, on condition that they will stop off 10 cents on the dollar and turn the same over to an authorized committee; second, that all men get their work back again."

After much debate these resolutions were adopted practically by unanimous vote. This practically ends the strike on the miners' terms, as the operators have agreed to these terms.

Brooklyn's Accounts Short.

New York, Oct. 9.—Comptroller Fitch's expert accountants, who have been at work investigating the records and accounts in Brooklyn preparatory to consolidation, have found discrepancies in accounts amounting to \$5,000,000. Officials of Brooklyn deny there is or has been any malfeasance, and allege that the discrepancies reported by Comptroller Fitch's experts are due in large part to the defective system of bookkeeping followed in towns which were recently annexed to Brooklyn.

Negroes as Miners.

Clinton, Ind., Oct. 9.—The coal miners employed here are greatly excited over the importation of negroes from Chicago to work in the mine, and there is much feeling in consequence. The miners say that the negroes are working for lower wages than have been paid to the whites, and that it is the intention of the Berry Coal Company to eventually supplant all of the white men with negroes.

Makes a Plea for Silver.

Manchester, Oct. 9.—The members of the royal exchange are memorializing the government to carry out its pledges to do all possible to secure a stable par of exchange between gold and silver, and suggesting a compromise between the extreme views of both parties. Considerably over a thousand signatures have already been obtained to this memorial, including the names of several monometallists.

Henry George Makes a Deal.

New York, Oct. 9.—A deal has been made between the followers of Henry George and the Citizens' union which provided that the county ticket of the Citizens' union should appear upon the official ballot under the Henry George ticket, which will be known as the Democracy of Thomas Jefferson.

New Madrid Shaken.

New Madrid, Mo., Oct. 9.—At 5 a. m. Friday an earthquake shock was felt here, but no damage was done. New Madrid was the scene of a violent earthquake in 1811, when a great part of the land in the entire county sank several feet and was overflowed by water from the Mississippi.

Pointer and Patchen Face Fast.

Omaha, Neb., Oct. 9.—A fierce north wind blowing across the track effectually prevented any breaking of records at the Star Pointer-Joe Patchen trial Friday. Joe Patchen went a mile in 2:03 3/4; by quarters, .29, .59, 1:31, 2:03 3/4. Star Pointer's mile was 2:02 3/4; by quarters, 30, 1:01 1/2, 1:32, 2:02 1/4.

Cabinet Discusses Spain.

Washington, Oct. 9.—Cuba was discussed in the cabinet Friday, and while no decision as to future action on the part of the United States was reached, it is known that there was a strong sentiment in the cabinet in favor of sending more urgent representations to Spain.

HOT STOUGHTON MAN
DRAWS A SWORD

HE BARS THE DOOR OF THE ARMORY.

Refuses to Recognize a Rental Contract and Threatens to Cut Down the Ex-Mayor—Revolver and Rapier Brought Into Play—Two Miners Killed.

Stoughton, Wis., Oct. 9.—[Special] This city is all stirred up over the sensation caused by a fight between Captain Rollis, ex-assemblyman, and Colonel Selderup, ex-mayor. The latter had leased the armory to a society for a social, and Rollis refused to give it up. Selderup entered the place forcibly, and was met with a pointed revolver, and threatened with being shot. Rollis also drew a sword and threatened to cut down the first man to enter the place. Selderup swore out a warrant and had Rollis arrested. The end is not yet.

Has Lived a Double Life.

Sheboygan, Oct. 9.—[Special]—George E. Crawford, a well known traveling man through the west, was this morning sentenced to two years in state prison for adultery. Crawford has been leading a double life, having a family in New York and a handsome young woman here whom he introduced as his wife. They had been living here two years when the second Mrs. Crawford appeared.

Two Killed By a Blast.

Wakefield, Wis., Oct. 9.—[Special]—About 10 o'clock last night while preparing powder to make a blast in the tenth level of the Brotherton mine a premature discharge caused the immediate death of two men and fatal injury to a third. The men killed are Alexander Peterson and Josepo Johnson. The injured man is John Harris. All are married and leave families.

THE LAST DAY.

State Finishes Up Its Evidence in the Luetgert Case.

Chicago, Oct. 8.—Friday was the last day of the state's evidence in the Luetgert case. Attorneys Vincent and Phalen said the sub-rebuttal would probably not take any more than a day. Then the arguments will take the rest of the week.

The attack on the Kenosha alibi was continued the first thing this morning.

Sergeant Frederick E. De Celle was on the stand. He told of a conversation with Matt Scholey in which the latter said: "If you fellows have got the stuff I'll talk for you."

At another time he met Philbin and Scholey together. Philbin said: "That woman was not Mrs. Luetgert and you know it." Scholey remained silent.

Officer Edward Walbaum gave other testimony tending to destroy the story of the Kenosha witnesses.

Officer Walter E. Dean denied that Mary Siemering had been ill-treated or intimidated in any way. Several other witnesses were sworn to give like testimony.

Officer Michael J. Qualey told of the arrest and of Luetgert's delivery of the knife to Mrs. Feldt.

Frank Odorofsky and Frank Levandofsky, employees at the factory, testified that they were both at the factory May 1 and that no barrels of meat or bones were there, and furthermore, that the factory was fairly clean and did not need the renovation and scrubbing with soft soap that Luetgert's witnesses claim he was preparing to bestow upon the establishment.

Killed Fifteen Wives.

Rotterdam, Oct. 9.—A man named Gustave Muller has surrendered to the city police, confessing the murder of his wife and child. As proof of the truth of his confession, he produced from his pocket four human ears. The police, on searching his house, found the two bodies. Muller subsequently confessed that he had also killed his parents, mutilating their remains in the same fashion, and then he made the astonishing statement that he had similarly disposed of fourteen wives whom he had married in various parts of the world.

Work of Indiana W. C. T. U.

South Bend, Ind., Oct. 9.—The state convention of the Woman's Christian Temperance Union met here Friday at the Christian Church. Mrs. Luella F. McWhirter, of Indianapolis, is present, and nearly 300 delegates are in attendance. The corresponding secretary, Mrs. Welch, read her report, showing a gain in membership in twenty-three counties. The Hadley Industrial School for Poor Girls and the Message, the state paper, were indorsed.

Dana's Condition Unchanged.

New York, Oct. 9.—There is no change in the condition of Charles A. Dana, who is ill at his summer home in Roslyn, L. I. His attending physicians say that the chances are against his recovery.

Knights to Meet at Elkhart, Ind.

Elkhart, Ind., Oct. 9.—The convention of the Knights of Pythias of Northern Indiana and Southern Michigan is to be held here October 29. Many prominent knights from abroad are expected to be present.

ROCK COUNTY MAN ON ENGLISH FARM

JOHN BEESLEY WRITES OF HIS
IMPRESSIONS.

He Gets Back To His Old Home At Threshing Time and Finds That Laborers Work Very Slow Compared To Their American Brethren.

John Beesley, who went back to England this summer to see the old home that he left twenty-nine years ago, writes an interesting letter to The Gazette comparing farm methods in England and America. He is at Wilden, near Bedford, England, and says among other things:

"I arrived at Bedford all safe and well, Sept. 19, just a week from when I started from New York. I went right through from Liverpool to London, two hundred miles, without changing cars. It was a lovely ride. Everything looked so green and fresh. Bedford is in a beautiful country but I notice that things look very different after twenty-nine years. I don't think that I would like to be a farmer here. Everything seems to go so slowly. The horses are very large and heavy but we can do three times as much work in a day with our teams than they can.

They have three horses to plow with and they go one ahead of the other, a man at the plow and a boy at the head horse; and if they plow an acre a day they think they have done wonders. They don't board help of any kind, all carry their dinners and lunches along. They are going to thresh tomorrow, but this will make no difference in the house. The threshers bring their own food. Farm land rents for about \$5, and lots of it is lying idle. The cattle and horses are all large and fetch a big price; my sister's husband sold a horse just before I got here for sixty guineas, that is about \$320. Of course I have not been here long enough yet to be able to tell all about this country, but I don't think that I shall like it as well as I thought that I should.

INSURE FOR \$10 A THOUSAND

This is the Lowest Figure Supreme Commander Markey Can Justify.

D. P. Markey, supreme commander of the Knights of the Macabees, gave facts concerning all the fraternal orders, in his report to the annual convention of the Knights of the Macabees, this week. He declared that taking all the fraternal companies in the congress the average amount paid by each member into benefit funds last year was little less than ten dollars for each \$1,000 of benefits represented. He asserted that every order that is providing protection for an average price of less than ten dollars per \$1,000, where its average age is even under forty years, is doing so at the expense of its future membership. Mr. Markey said he regarded the present competition from new orders as insignificant compared to what may reasonably be expected five years hence. The report showed, however, that in 1896 the average expense per capita of the societies within the congress was but \$1.35 as against \$1.46 in 1895. For the first seven months of 1897 all the orders show a net increase of 27 per cent. over 1896.

POTATOES DROP A TRIFLE

Farmers Are Receiving Only 35 Cents in the Northern Market.

Northern potatoes are beginning to arrive in car load lots and a drop in the price is promised. With each incoming south bound freight, cars loaded with pump tubers can be seen billed to the Chicago market but now that the city market is being overstocked potato speculators are looking towards the small towns. Berlin is the great shipping center for Waushara county potatoes and Waupaca for Waupaca county potatoes. Up to last Saturday Berlin buyers bought freely at forty cents per bushel and consequently the growers hauled their potatoes to that place. The Chicago markets became stocked up, and on Saturday the price of potatoes at Berlin fell to thirty-five cents and later to thirty-cent per bushel for sorted potatoes.

STEWART BUILDS SCHOOL

Janesville Bids Were Too High On the Darlington Job

Members of the Darlington school board who recently made a thorough inspection of the Janesville High school, have let the contract for building their new school house to Fred Stewart of Freeport. The cost of the building complete will be \$11,800. Local contractors submitted figures for both the inside work and the building.

MANY HUNTING SQUIRRELS

Bushy-Tailed Denizens of the Woods Are Very Numerous.

Several squirrel hunting parties have been planned for tomorrow by local hunters, and the squirrel hunting season is fairly opened. The supply of squirrels may be said to depend on the quantity of nuts, and the hickory trees are well loaded this year. Word comes from the neighborhood in which the festive gray is found, that he is very much in evidence this year, and some very good sport has been had in pursuit of the bushy-tailed gymnast already. So long as the sportsmen who pursue him stick to their small calibre rifles, there will be little danger done to the squirrel—at least until the trees are bare of foliage than they are at present.

BROKE RECORD BACK TO 1870

Hot Weather During September Was the Worst in 27 Years.

Janesville people who suffered from the excessive heat last month may find some consolation in the fact that it was the hottest September in twenty-seven years. According to the Washburn observatory on 25 of the 30 days the thermometer reached 70 or over. The hottest day was Sept. 9, when the mercury went to 90. The coolest was the 17th, when it went down to 48.5. The rainfall was but 1.53 inches, about one-third that of September in 1896.

LIVE IN A TENT ALL FALL

Janesville Family Find It Pays to Move to Koshkonong.

Charles E. Hanson and his wife who live at 310 South Main street find it more profitable to close their house at this season of the year and move to Lake Koshkonong where they spend their time in fishing. Yesterday afternoon they left town for the happy fishing grounds, when after pitching their tent they remain till cold weather sets in. They make a good living supplying customers in the Janesville and Chicago markets.

HOUGHTON OFF FOR AFRICA

Sailed From Southampton a Week Ago With Four Friends.

Alexander Buchanan is in receipt of a letter from ex-Officer Walter Houghton mailed from Southampton, England a week ago just as Mr. Houghton was about to step aboard the steamer for South Africa. The passage from New York City to England, he says, was rough and made many on board sea sick. From England Houghton sailed for the dark continent in company with four other friends who intend to make Africa their home.

CARRIAGE MEN ARE BUSY

They Will Be Crowded With Orders During the Winter.

Carriage factories throughout the state are all having a brisk trade. The Janesville Carriage Works and the Wisconsin Carriage Top company have both been running on full time and at Oshkosh the carriage manufacturers will begin operations one month earlier than usual. When trade was at its best the busy season did not open until December. This year November 1 will see all the factories in full blast.

UNIONS MAY PLAY HERE

Arrangements Under Way For a Game With Local Ball Tossers.

Arrangements are now being made to secure a base ball game in this city before snow flies. The Chicago Unions colored team will probably be engaged and a home team made up of Morrissey, Dixon, McGinley, Schicker, Birmingham, Orall, Sullivan, Brewer and Holleran. A hot contest should be assured.

ODD NOTES FROM THE LEAF

T. E. WELSH sampled a choice line of '96 this week.

A. N. JONES shipped two cars of tobacco Tuesday.

ROBERT L. ERLER shipped a car of fillers this week.

J. L. & M. F. GREEN began the sampling of 2,500 cases of '96 this week.

D. LCOMIS, a leaf dealer of Springfield, Mass., was in the market Wednesday.

SOL PRETZFIELD, a leaf dealer of New York, arrived in this market Wednesday.

J. L. & M. F. GREEN shipped three cars of tobacco from this city and one from Milton this week.

It begins to look as if there was some immediate business in prospect for the holders of old stock.

The dry weather prevents any examination of the new crop and nothing is known of its quality.

H. S. MCGIFFIN, J. S. Hutson and W. McIntosh, of Edgerton, were visitors in our market Tuesday.

A NUMBER of out-of-town buyers have been in the state of late and have bought at satisfactory prices.

F. S. BAINES has put in a busy week shipping, he having sent three cars to New York and four carloads to Cincinnati.

THE 1897 crop is mostly cured out and some of it will be ready for stripping when it can be removed from the sheds.

THE samples of the '96 are mostly ready for inspection, and show a marked improvement in looks over those drawn earlier in the season.

ANDREW JENSEN has disposed of 185 cases of '94 and '95. Shuman & Stewart also sold a 100 case lot of '96 to a St. Louis dealer. C. D. Collins, a Pittsburg manufacturer, bought over 500 cases at various market points in the state.

GET SIX CENTS MORE FOR THEIR BARLEY

ROCK COUNTY FARMERS TALK
OF DELAVAN.

When Janesville Buyers Were Paying 26 Cents a Walworth County Firm Gave 32 Cents—Many LaPrairie Men Have Crossed the County Line To Market.

Four prominent LaPrairie farmers stopped a Gazette man at the corner of Main and Milwaukee streets and asked about the prospect for a grain buyer. They live but four miles from this city but they have been trading in Delavan of late for the reason that they sell their grain there to a better advantage.

H. C. Proctor, one of the quartet, said that when he hauled his last load to Delavan there were twenty-two teams ahead of him at the elevators waiting to be unloaded. Of these teams over half of them were from LaPrairie and within easy seeing distance of Janesville. Hoey & Son of Delavan, paid 32 cents a bushel for good barley when Janesville buyers were giving 26 cents. Farmers who will not haul barley twenty miles for six cents a bushel are scarce.

Among other prominent LaPrairie farmers who have already hauled hundreds of bushels to Delavan are Eugene Ransom, Frank Whitmore, Clarence Wright, J. W. Frost, Dewey Hawthorn and John Little.

CYCLE RIDERS SELLING OUT

QUITE a number of local riders are disposing of their '97 model wheels.

One of the most disgusting sights in the world is another fellow on a tandem with your best girl.

Six local firms have given away wheels this season to help boom their business. They say it paid.

THE Whitewater Register says: There is a young biker about town who brought home a big dose of scent from Janesville a few days since. He says he did not think that cats of any kind would stand still and let a wheel run over them. There is no need of mentioning his name—you will know him when you meet.

ONE who takes rides in the country is struck by the fact that many farmers living within a radius of ten miles use the bicycle to run in and out of the city. They own their own wheels, and the sons and daughters ride quite generally.

HAIR PULLER HARD AT WORK

G. Millay Takes a Contract to Saw and Split Fifty Cords of Wood.

George Millay the Beloit "hair puller" who is now in jail for sixty days started in today on a fifty cord wood sawing contract. Turnkey Samuel Brown after adjusting a handsome ball and chain to one of Millay's legs led him from his cell at 7 o'clock sharp this morning and introduced him to a pile of oak wood that looked bigger than a summer cottage. It has stood six months in the jail yard. Millay is determined to saw and split and pile this fifty cords within the next sixty days.

RABBIT PEST IS GROWING

William Caldwell Goes Back to Australia to Find Bunnies Plenty.

William Caldwell who lives near Melbourne, Australia, has left for home after a visit in this city the guest of P. K. Caldwell. Before departing he received word that rabbits are growing more numerous again. For years they have been about as thick as the English sparrows are here and are being slaughtered annually by the thousands.

POSITION FOR BLIND GIRL

Miss Louise Tuttle Goes to School for Dependent Children.

Miss Louise Tuttle who for the past eleven years has been at the state school for blind in this city, has been appointed assistant at the state school for dependent children at Sparta. Miss Tuttle who resides at Baraboo, has unusual mental gifts. She graduated here last June with high honors.

HAMMAS HAS PIE DAILY

On Festal Occasions the Alleged Horse Thief Revels in Ice Cream.

Henry Hammas, the alleged horse thief, is the envy of every prisoner in the jail these days.

He has pie and ice cream for dessert. After being in jail for several days, Hammas realized that day board at the jail was not what it might be. He told his wife, and Mrs. Hammas now appears on the scene every day with a well filled basket.

WANT KLINE IN KANKAKEE

Popular Y. M. C. A. Secretary Has Trouble in Closing Up His Work.

Secretary J. C. Kline of the local Y. M. C. A. is having a hard time getting away from his duties at Kankakee, Ill. In a letter received by members of the local association, Secretary Kline stated that the Kankakee members regretted much his departure, and that they wished him to remain. He says now he will be here by Wednesday of next week.

as far more than you if we make assertions about goods that we can't bear out. You wouldn't believe us the second time, for one thing, and it's doubtful if we could have your patronage. The offers made below may seem like exaggeration, but a visit and a trial will convince you that we state only facts.

Dress Goods at 15c, double fold, good weight, and a large line to select from. You can't match them elsewhere.

Dress Goods at 20c, all wool, excellent styles, good to wear. cannot be equaled outside of this store.

Dress Goods at 25c, an immense line, hundreds of pieces; variety great, plain and fancy. A good dress costs but little. No such line or values at other stores.

Dress Goods at 30c, positively the biggest 30c worth of Dress Goods ever offered over a counter. It is not even the manufacturer's cost for the goods.

Dress Goods at 40c, 50c, 60c, 65c, 75c, 85c, 87½c, \$1, \$1.25, \$1.50, &c., the very best for the prices that we ever bought. A marvelous stock, nothing less. Scores of lovely Pattern Dresses, only one of a kind.

BLACK GOODS---Simply futile for competitors to try to beat such offerings. Mr. J. M. Bostwick made some wonderful purchases in New York and we have got surprises without number almost in all departments.

RIBBONS---Greatest Ribbon year ever known. Manufacturers way behind on orders. But we have plenty of them. Hundreds of lovely effects in narrow and wide Ribbons. Many elegant novelties, some extra wide imported Roman sash Ribbons, exquisite colorings, at \$6.00 a sash (4 yards.)

JANESVILLE

THE OVERFLOW OF LOCAL NEWS.

ITS WEIGHT IN GOLD.

A NEW DISCOVERY WHICH IS WORTH THAT MUCH.

To Anyone Afflicted With Piles.

The Pyramid Pile Cure, the new painless remedy which has been so remarkably successful in curing every form of piles and rectal diseases, has recently been placed on sale at druggists and it is safe to say that when its extraordinary merit becomes fully known, there will be no such thing as surgical operations for the cure of this obstinate and common trouble.

Mrs. M. C. Hickley of 601 Mississippi St., Indianapolis, Ind., says: I had been a terrible sufferer from piles for fifteen years and no remedies benefited me, until I saw an advertisement of the Pyramid Pile Cure; I got a package also a package of Pyramid Pills and used both according to directions I was astonished at the immediate relief obtained and now I honestly believe the Pyramid to be the only certain cure for piles.

That you may realize how bad I was, I will say that I was confined to my bed and went before the college physicians here who said my case was a new one to them and wanted seven or eight hundred dollars to undertake a cure; the great pain had brought on a rupture, and I know an operation would be death to me on account of blood poisoning. Nearly everyone here knows of my terrible suffering from piles and I feel that I cannot praise the Pyramid Pile Cure enough and the Pyramid Pills also. My husband will join me in highly recommending the Pyramid, my daughter was cured by one box only. For several years I weighed but about 90 pounds, now I weigh 150 and feel in perfect health.

This seems to be the universal testimony of every sufferer from piles who have ever tried the Pyramid; it is the safest, most painless pile cure yet discovered; contains no opiate, morphine, cocaine or any poisonous ingredient, whatever, has a soothing, healing effect, from the first application, and the moderate price places it within the reach of everyone needing treatment. The Pyramid Cure is sold by druggists at 50 cents and \$1.00 per package and the Pyramid Pills at 25 cents per box. Send to Pyramid Co., Albion, Mich., for free book on cause and cure of piles.

SERIOUS RUNAWAY AT MILTON

E. D. Bliss and Wife Have Narrow Escape—Late Village News.

Mr. and Mrs. E. D. Bliss were the victims of a runaway accident Tuesday afternoon. His team became frightened in front of Bledon's house, broke down two hitching posts in front of Dr. Borden's and came to a halt when Mr. Bliss ran them up against a large tree. In the meantime Mrs. Bliss jumped out of the rig and escaped without injury. The wagon and harness suffered some damage but neither Mr. Bliss or the team was injured.

Mrs. George W. Brown and family left Tuesday for Nashville, Tenn., which city will be their home during Mr. Brown's connection with the engineering department of the Nicaragua canal.

Editor Davis, of the Journal, met with a disagreeable accident Wednesday. A broken lamp chimney fell on the back of his hand and severed an artery, which bled profusely for a time.

The donation on Thursday evening for the benefit of Rev. George R. Chambers was a pleasant social affair and a financial success, the receipts aggregating over one hundred dollars.

Edwin Babcock is carrying his arm in a sling as the result of being thrown from a buggy and dislocating his shoulder, at Coloma, where he was engaged in agricultural work.

Rev. F. B. Sherwin and family are now nicely located in the M. E. parsonage and tomorrow he will preach his introductory sermon to his new charge.

Ellis Mendenhall of Watertown, visited his daughter, who is attending college, and his brother-in-law, R. S. Babcock and family, Wednesday evening.

Dr. H. E. Stetson of Lima, was in the village, Tuesday, and assisted in gathering up the remains of Patrick Moran.

W. F. Ballard went to Manchester, Iowa, Thursday, being called there by the dangerous illness of his father.

Rev. Perry Millar and wife of Milwaukee, were the guests of their Milton relatives this week.

Sanford Soverhill and W. S. Jones and wife of Janesville, were Milton visitors, Thursday.

Miss Skinner of Watertown, has been the guest of Miss Mendelhall, this week.

President Whitford returned from his trip to New York Wednesday.

Mrs. J. C. Lane of Milwaukee, visited Mrs. Miles Rice, Thursday.

"I can't see how any family lives without Chamberlain's Colic, Cholera and Diarrhoea Remedy," says J. R. Adams, a well known druggist, of Geneva, Ala., in a letter inquiring the price of a dozen bottles, that he might not only have it for use in his own family, but supply it to his neighbors. The reason some people get along without it, is because they do not know its value, and what a vast amount of suffering it will save. Wherever it becomes known and used, it is recognized as a necessity, for it is the only remedy that can always be depended upon for bowel complaints, both for children and adults. For sale by C. D. Stevens, Pharmacist, corner Main and Milwaukee streets.

Jailed by Spirit Evidence.
 E. S. Shue has been sent to prison from Raucevert, W. Va., by the evidence of a "spirit." His wife was found dead and a jury declared she died of "death by heart disease." Neighbors were not satisfied, so the woman's body was exhumed and the neck was found broken. Shue was arrested and was convicted and sentenced to the penitentiary for life. The principal direct evidence was that of Shue's mother-in-law, who testified that her daughter's spirit had come to her at a seance and said Shue had killed her by breaking her neck.

"Many have said their children would have died of croup, if Chamberlain's Cough Remedy had not been given, write Kellan & Curran, druggists, Seaview, Va. "People come from far and near to get it and speak of it in the highest terms." This is equally true of this remedy in every community where it is known. Buy a bottle at Stevens drug store and try it yourself.

Entire Spanish Army Sick.

Havana, Oct. 9.—Heavy rains for the last two weeks have greatly increased the number of sick soldiers. The death rate among the ill-fed, shoeless army of Spain, forced to operate, drenched to the skin by day, and exposed to deadly miasma rising from the swamps at night, is appalling. The hospitals are crammed, also the sugar warehouses, which have been improvised into sick wards. Over 2,000 confirmed invalids have been shipped to Spain during the last week.

Scale for Illinois Miners.

Terre Haute, Ind., Oct. 9.—State Secretary Kennedy of the United Mine Workers went to Streator, Ill., on telegraphic instructions from National President Ratchford to assist in the effort to get Illinois operators and miners to agree on a scale. He is also to help along the movement for a joint conference of miners and operators of Illinois and Indiana, with a view to be in readiness to join in the interstate conference in December, provided for at the Columbus conference.

Senator Jones Will Keep Out.

Washington, Oct. 9.—Senator James K. Jones, chairman of the Democratic National Committee, says he will take no part in the municipal contest in Greater New York. He disclaims any responsibility for the action of Secretary Walsh in endorsing the candidacy of Henry George, merely remarking that as an individual Walsh had a perfect right to take whatever action he considered proper.

Every Saturday Tourist Sleeping Car Route to California.

Commencing next Saturday night, and continuing every Saturday night thereafter, Midland Route tourist cars en route to Colorado, Utah and California will leave the Chicago Union passenger station of the Chicago, Milwaukee & St. Paul railway at 10 o'clock, running over the Chicago and Omaha short line to Omaha, thence via Lincoln, Neb., Colorado Springs and Leadville, Colo., Salt Lake City and Ogden, Utah, Reno, Nevada, and Sacramento, Cal., arriving at San Francisco at 8:45 p. m., Wednesday.

As will be noticed, this route is midland through northern Illinois, Iowa, Nebraska, Kansas, Colorado (through the heart of the Rockies), Utah, Nevada and California, affording a perfect panoramic view of prairie, mountain and coast scenery.

These popular every Saturday California excursions for both first and second class passengers not foreign emigrants are "personally conducted" by intelligent, competent and courteous "conductors" who will attend to the wants of all passengers en route.

This is an entirely new feature of tourist car service and will be greatly appreciated by families or parties of friends traveling together, or by ladies traveling alone. Particular attention is paid to the care of children who usually get weary on a long journey.

Remember that the Midland Route Tourist Cars are sleeping cars and are supplied with all the accessories necessary to make the journey comfortable and pleasant and the sleeping berth rate is but \$6 for two persons from Chicago to California.

Ask the nearest ticket agent for a tourist car "folder" giving complete information about the Midland Route or address "Eastern Manager Midland Route," No. 95 Adams street, Chicago, Ill.

P. S.—Berth reservations are made in the order received up to each Saturday morning. First come, first served.

LIKE A MIRACLE

How a Locomotor Ataxia Sufferer Was Cured.

From the Evening News, Detroit, Mich.

James Crockett, a sturdy old Scotchman, living in Detroit, Mich., at 88 Montclair Street, was asked about his wonderful cure.

"First," he said, "I must tell you something of my life before my almost fatal sickness. I was born in Scotland in 1822, and came to this country in 1848. I am a marine engineer by trade. In 1872 I was in the employ of the Detroit and Cleveland Navigation Co., and for fifteen years I was chief engineer on one of their big passenger steamers. My first boat was the R. N. Rice, which was burned at the docks. Then I was transferred to the Rubie, which was chartered to make the run between Detroit and Cleveland.

"I brought out the new steamer the 'City of the Straits,' and for years acted as her chief engineer. It is a great responsibility, the position of chief engineer on those big passenger palaces. Thousands of lives are held in the keeping of the engineer. The anxiety causes a great nervous strain, and the strictest attention is necessary. Not for a moment must he lose his watchfulness.

"For fifteen years I carefully watched the big engines and boilers without a single accident, and only noticed that I was getting nervous. Suddenly without warning I was taken sick, and in less than a week I was prostrated. I had the best of physicians. I grew gradually worse, and at the council of doctors, they said I had nervous prostration, and had destroyed my whole nervous system and would never be able to be up again. They said I had worn myself out by the long nervous strain caused by watching and worrying about the machinery. For three long years I was unable to move from my bed without assistance. The doctor said I had locomotor ataxia, and would never be able to walk again.

"The pains and suffering I experienced during those years are almost indescribable.

My wife used to put eight or ten hot water bags around me to stop the pain. Those that came to see me bid me good-bye when they left me, and I was given up. The doctors said nothing more could be done for me.

"We tried every known remedy, and my wife kept reading the articles about Dr. Williams' Pink Pills for Pale People to me. Finally she said they only cost 50 cents, and she wanted to know if I would try them. To please her I consented, and the first box gave me relief. I continued to use them for about two years before I could get strength enough to walk. It came slow but sure, but what I am to-day is due wholly to Dr. Williams' Pink Pills for Pale People.

"I am nearly seventy-five years old to-day, and there is not a man in the whole city that can kick higher or walk further than I can to-day. If any one has locomotor ataxia that reads this, let them come and see me to-day. Can you tell me a man to-day in this big city that can do better than that?" said Mr. Crockett, as he kicked the reporter's hat, which was held high above his head.

"Dr. Williams' Pink Pills for Pale People made me what I am to-day. I only wish I could persuade others to do as I did, and take them before it is too late."

(Signed) "JAMES CROCKETT."
 Before me, a Notary Public, personally appeared James Crockett, who signed and swore to the above statement as being true in every particular.

HOW DEAFNESS IS CURED

The Thermo-Ozone Battery A New Discovery for the Cure Of Deafness.

For the First Time Deafness is Cured by Sending Medicine Into the Middle and Inner Ear.

Aurists in this and other countries have exhausted their skill in treating the drum of the ear and eustachian tube. No plan, no method, has ever before been adopted capable of carrying the treatment into the mucous membrane that covers the bones of the middle ear and other organs of hearing.

OUR CONFIDENCE

is so thoroughly authenticated by cures that for a limited time, we will give free trial treatments, at our office, for catarrhal deafness; ringing, roaring, or buzzing hissing noises, in the ears positively cured—over 175 treatments given in September without a failure. We treat all disease for which stomach medicine is given. But we give no medicine by the month.

CANCER CURED

Without knife, plaster or injection. Absolutely painless.

HOWELL COBB

WORLD LACKS FOOD.

Logical reason for the present higher market price of wheat and hope for its continuance to the American farmer are to be found in the statistics gathered by C. Wood Davis and published in the October Forum. "The Impending Deficiency in Breadstuffs" is not a dream, if his figures are correct. Since 1871 the bread eaters of the world have increased 37.5 per cent and the wheat acreage has increased only 25.6 per cent, while the acreage of rye, buckwheat and other bread cereals has decreased. This can only mean a hunger for bread to all humanity, if supply and demand continue in such a ratio. The percentages suggest that the American farmer should keep right on growing all the wheat he can. But they also emphasize the value of the work done by our agricultural department in teaching the rest of the world how to use corn for food.

NOT THE PLACE FOR THEM.

It was not a surprise to intelligent people that ex-Governor Boies refused to stump his state any longer for the Bryanite ticket. Boies abandoned free silver several months ago, and most of the other Chicago platform adherents are doing the same thing now, but Boies is moving in a different direction from the others. He apparently thinks there is too much flatism and dishonesty in silverism, while other Bryanite chieftains think there is not enough. Thus while he is moving toward the sound money side they are dropping to greenbackism. Men like Boies have no place in the Bryanite party of today and are not likely to stay.

Senator Foraker is taking the most sensible course to prove the falsity of the published statements that he canceled his Ohio campaign appointments. He is in the fight from start to finish and is doing his best to make sure that the republicans elect their senatorial candidate and the entire state ticket by a big majority.

Nobody has been heard to hint for the past two months that William McKinley made any mistake last fall when he remarked that he thought it better to open the mills to American labor than the mints to the world's silver.

The envoys who went to Japan to see why silver was demonetized don't seem to be in any hurry to report. Time is passing, gentlemen.

Has Mr. Bryan given up his Mexican trip? Nobody seems to want him in the state campaigns now in progress. He can go if he wants to.

KNOFF THROWN IN THE LAKE

Janesville Boy Writes Home About the Class Fight at Madison

Robert Knoff of this city, was one of the freshmen thrown in the lake in Madison. He writes to his parents: "The freshmen were called together last night to see about drill. When we were let out the sophomores were waiting for us and a desperate class fight ensued. The freshmen outnumbered the sophomores so we defeated them. I didn't get mixed up in it much at first, but when they grabbed little freshmen unawares and started with him to the lake I couldn't help trying to help him. The end of it was that seven men got ducked; four sophomores and three freshmen. I had one sophomore down under water. I wanted to sink him but he didn't want me to. We both got wet all over. It was one of the best fights they have had here for years. About six hundred freshmen and half as many sophomores were there. Not all the freshmen fought. A large number just looked on."

DEATH TAKES AWAY PROF. SEVERANCE

WELL KNOWN DANCING MASTER HAS GONE.

He Lived Until Seventy-four Years Old Without a Touch of Illness, and With Buoyant Spirits—Was a Familiar Figure in All Parts of the State.

Professor Severance was a picturesque figure, long gray hair crowning his head and rolling in ringlets over his shoulders. He was in the best apparent health up to the moment that he was stricken down.

A Reformer From Youth.

Professor Severance came to Waukesha county when he was fifteen years old. He was eccentric even in his boyhood days, and having heard the old expression in the parlance of the country corners, "As drunk as a fiddler," applied it to everyone who showed signs of having tarried too long at the cup, young Severance became impressed that it was his duty to learn to play the fiddle and become a teacher, in order to redeem the unfortunate musicians from the slander. He learned to play the fiddle, he became as famous in that primitive day as a musician, and in later times he was given the prefixure of "professor of music and dancing," and yet he has lived his life of seventy-four years and has gone down to his death without ever having allowed intoxicating liquors to pass his lips.

Organized a Band.

Having learned to play the violin, it became the means for his making his way in the world. As a young man he organized the Severance & Williams Quadrille band, and although its headquarters for years was at the little settlement in Waukesha county known as Eagle postoffice, the reputation of the band was as wide as the civilization of the state.

It was called to Madison to play at inaugural balls, and to all the towns and cities and villages within a radius of fifty or sixty miles to furnish music for the dancing parties that came as an appendix to the quilting bees, the barn raisings and to the weddings and other events marking with distinctness the primitive age of society in Wisconsin. There was fun and frolic in those days, and young Severance caught the infection and learned to dance with the rest of them; he graduated into a teacher of dancing, and this is the vocation that he followed through his long life.

Was a Vegetarian

At the age of 74, with his fiddle under his chin, he would step off the measure of the waltz or polka as lightly as a boy of 20. He was never sick in his life and when the number of his days had lapsed he died suddenly.

Prof. Severance had no use for physicians nor did he believe in medicine. He was in theory, at least, a vegetarian.

As a reformer he joined the Knights of Labor when that organization was in the zenith of its power. He organized the Liberal club in Milwaukee, and bore the greater part of the expense of its early maintenance. He was not an arbitrary free-thinker who believes that everyone must be made to think as he does, but a free thinker with respect for the opinions of all. He was a spiritualist, but he did not intrude his belief on others.

Prof. A. B. Severance.

Prof. A. B. Severance, who taught generation after generation of Janesville people the waltz and polka, died at his new home in North Chicago after a brief illness yesterday. He left Milwaukee about a year ago. Prof. Severance was seventy-four years old and was widely known in Wisconsin. He was a social reformer and an enthusiast in the labor movement.

Miss Elizabeth Niel.

Miss Elizabeth Niel, daughter of the late James Niel, a former Janesville attorney, died in Washington yesterday. Miss Hattie Niel will arrive in Janesville Sunday at 12:40 p. m. with the remains of her sister, and will go from the depot direct to Oak Hill cemetery, where the interment will take place. Rev. Arthur H. Barrington, rector of Christ Episcopal church, will conduct brief services at the grave.

REV. W. A. HALL will speak on a timely subject at Court Street church Sunday evening, his theme being "Klondike It flamation."

THE date of the W. H. Sargent Post anniversary is Oct. 20. Supper will be served at Post Hall and the entertainment will be in the Armory.

DON'T forget that we set up and repair stoves and furnaces. We do all kinds of tin work; have a large force of expert tinner. Lowell Hardware Company.

GEORGE CHARLTON shipped a car of heavy draught horses to the Michigan pinneries today. There were fifteen in the car and they averaged 1500 pounds in weight.

MICHAEL BUOB, the well known brewer is home from a trip to Wausau. Wausau saloons are open every Sunday after church hours to the general public, Mr. Buob says.

ALDERMAN Miltimore has sold his well known mare Segrel to Amos Mitchell of Juda. Segrel has shown a 2:16 clip and the price paid is understood to have been a handsome one.

WHEN setting up your stove don't forget to put on a Spicer return flue self cleaning damper. Just the thing for heating an upper room. Call and examine them at shop No. 16 South River street.

WE are in the coal business and sell the best grades of hard coal, none better. Office and yard in rear of postoffice. Come and see us. Crossett & Bonesteel, Agents. Anti-Combustible Coal and Wood Dealers.

MISS ELLEN R. GARFIELD, who so successfully conducted the institute art classes here last summer is coming here to teach painting and crayon work. She will be at Heimstreet's Drug Store, Tuesday at 2 o'clock.

It has been remarked by many that the city parks have never been in better shape than this summer. The grass has been green throughout the dry spell, for which fact Sup't. Thomas Croft is entitled to much credit.

BAPTIST CHURCH.—Rev. Louis A. Platt will preach at 10:30. No preaching service in the evening. Sunday school at 12 m. The pulpit committee will report at the morning service. A full attendance of all members of the church and society is desired.

WHEN W. D. CANTILLON marshaled the C. & N. W. forces to prevent the crossing of the Northwestern lines by an electric railway in South Milwaukee he did not hold the fort in vain. The electric railway company has now agreed to build a subway under the Northwestern track.

LOWELL, the hustler informs us it is not an unusual occurrence to sell a whole car load of stoves a week. Fourteen men are employed in the stove and tin departments. Lowell's business is increasing all the time, showing that prices and goods are exactly as represented.

SHERIFF ACHESON took Mrs. Stella Osterheld of Lima, to the Mendota hospital for the insane yesterday. Mrs. Osterheld, who is a well known resident of Lima, is about thirty-five years of age. For three years she has been afflicted with melancholia.

THE Janesville high school eleven lined up as follows in Evansville today: Jerg center, Nott right guard, Murwin left guard, Millmore right tackle, Bonesteel right end, Carpenter left end, Sutherland full back, Casford right half, McDonald left half, Mathews quarter back. Percy Wallace and Albert Bemis were substitutes.

NOTICE—We are in the stove business to stay. We keep the very best stoves that money can produce such as Garland, Radiant Home, Jewels and Riversides. We also have a cheaper line to fit small and lean pocket books. We guarantee every stove we sell. We have a first class tin shop with a large force of competent workmen; stoves and furnaces repaired and all kinds of tin work at lowest prices. Lowell Hardware Co.

NO LOVE IS WASTED IN FRATERNITY HALL

FACTION FIGHT ENDS IN A LAW SUIT.

Stockholders In a Shopiere Association Ask to Have a Receiver Appointed

—Claim That Unwarranted Expenditures Have Made An Assessment Necessary.

Fraternal love is lacking in Fraternity hall, Shopiere.

There will be a receiver appointed if the discontented stockholders can have their way.

The discontented stockholders will be bumped violently if the officers are able to have their way.

Action for the appointment of a receiver and the distribution of the assets of the Fraternity hall association has been begun by Dr. A. B. Manley, E. P. Bostwick, Jas. Conley and S. K. Sweet. The suit, of course, lies against the association but President Johnson Dunn, Secretary Frank Steadwell and Treasurer Chas. Shimesall are the men they are especially after. Fethers, Jeffris, Fildfield & Mount represent the complainants in the matter.

Hall Cost \$1,200 In 1893.

Fraternity Hall was built in 1893 at a cost of \$1,200. Dr. Manley was president until July 1896. At the 1896 meeting the Steadwell faction which is separated by a deep and bloody chasm from the Manly faction mustered eighty-five votes and elected Dunn president. At that time Dr. Manley claims there was \$233 in the treasury and the hall was on a paying basis. His complaint relates that the directors at once voted the president, secretary and treasurer a salary of \$50 a year each, although the old officers had always served without pay.

Shortage in Sight.

The same salary was voted this year, and the officer's report showed, the complaint avers, that instead of a balance in the treasury, the strong box is so empty that an assessment on all the stockholders must be levied to get through the year.

The protesting stockholders say that there is no excuse for a shortage, as the hall brings in a fair revenue. One of the stores under it is rented by Burnham & Billings. The postoffice has also had quarters there during Postmaster Frank Steadwell's administration. What effect the appointment of Zenas C. Perkins as postmaster, last Thursday, will have on the case, does not appear on the records.

BUNCOED GIRLS OUT OF \$5

Smooth Young Man Sells Jobs as Correspondent For City Papers.

A smooth young man has been "working" young ladies in towns around here to the tune of \$5 each. At Albany last week he buncoed several out of \$5 by stating that he would secure them positions as writers or correspondents for papers, for which they would receive a fair compensation. The young man collected a fee of \$5 from each young lady as his pay for getting them the positions. He gave what purported to be a receipt for the money. This did not appear to be all right to the mother of one of the young ladies and she compelled him to pay the money back. The others only have the experience.

A TRUE AMERICAN

Dr. Adams' Lecture Monday Evening On "Living Questions."

An American through and through, Mr. Adams handles the living questions of the day from the view point of an optimist—a lover of men and a stout believer in the ultimate triumph of the right, the truth, and the people. He maintains that "all's well that ends better;" and with this fundamental trust in evolution toward the right, he enters upon the discussion of social and historical themes with an enthusiasm, eloquence, and power which carry his audiences away. He is a master of satire, but it is the satire of overflowing good nature and bubbling wit. He keeps his hearers in perpetual laughter, although able to touch at the next moment the very heart of pathos.

MISS LARSON SURPRISED

THE SCIENCE OF SAYING "NO."

We are told that the comic actors of Italy sometimes amuse their patrons by exploiting the syllable "oh." Out of a word that is only a single vowel sound they can create surprising effects by a trick of articulation, varying the key, volume, accent, length, emphasis, and accompanying manner and facial expression through the whole gamut of different meanings. When they are done their auditors have heard them pronounce "oh" in twenty different ways.

The feat of the comedians has a serious suggestion in it. There are several ways of saying "No," though it can never have but one meaning. The mother of the late Mr. Allen Thorndike Rice, long the well-known editor of the North American Review, found occasion for a series of vocal lessons on that word, in his early life, for which he was always grateful.

When a schoolboy he had a weakness for making sudden friendships, and naturally, some of his hasty intimacies were unlikely to be of any moral advantage to him. His talented mother did not trust everything to his general knowledge of right and wrong, but sought by an original and pleasant method to strengthen him where he was weakest. She practiced him with a list of different questions that required no for an answer, until she had taught him to inflect the syllable according to the sentiment.

All the range of negatives came into the curious drill, from the no of simple dissent to the no of indignant rejection, and he learned all the proper accents—of playful reproof, of cautious mistrust, of heroic defiance—in short, he learned the science of refusal thoroughly. And he never forgot it.

To decline a "shady" invitation was always easier for him because he knew exactly how to say the resisting word. His tempters understood him at once. Both principle and politeness are essential to refined manhood and womanhood. The will and the skill to say no gently but firmly are among the best accomplishments of human character.

Few men in this country are better or more favorably known to the drug and medicine trade than Mr. E. J. Schall, buyer in proprietary medicine department of the Meyer Bros., Drug Co., St. Louis. He says: "My boy came home from school with his hand badly lacerated and bleeding, and suffering great pain. I dressed the wound and applied Chamberlain's Pain Balm, freely; all pain ceased, and in a remarkably short time, it healed without leaving a scar. For wounds, sprains, swellings and rheumatism, I know of no medicine or prescription equal to it. I consider it a household necessity." Sold by O. D. Stevens, Pharmacist, corner Main and Milwaukee streets.

A Picture of Medieval England.

Not seldom I please myself with trying to realize the face of medieval England, writes William Morris; the many chases and great woods, the stretches of common tillage and common pastures quite unenclosed; the rough husbandry of the tilled parts, the unimproved breeds of cattle, sheep, and swine; especially the latter, so lank and long and lathy, looking so strange to us; the strings of pack horses along the bridle roads, the scantiness of the wheel roads, scarce any except those left by the Romans, and those made from monastery to monastery; the scarcity of bridges, and people using ferries instead, or fords where they could; the little towns well bechurched, often walled; the villages just where they are now (except for those that have nothing but the church left to tell of them), but better and populous; their churches, some big and handsome, some small and curious, but all crowded with altars and furniture, and gay with pictures and ornament; the many religious houses, with their glorious architecture, the beautiful manor houses, some of them castles once, the survivals from an earlier period; some new and elegant; some out of all proportion, small for the importance of their lords. How strange it would be to us if we could be landed in fourteen century England; unless we saw the crest of some familiar hill we should not know into what country of the world we were come; the name is left, scarce a thing else.

Conditions Which Breed Insanity.

A leading New York physician, who has examined thousands of people at Bellevue hospital for symptoms of insanity, said: "The largest number of women whom we find insane are house workers or domestics. Hard work under hygienic conditions, that is, with short hours, does not cause insanity. It is when hard labor is coupled with bad air, long hours and poor pay, resulting in scanty food and privations, that it produces insanity. We get many cases of young women from department stores and large manufactories, but it is not due to work alone; but the majority of insanity among women is found among domestic workers, and particularly among those on farms in lonely sections."

BEATEN AT HIS OWN GAME.

A Louisville Attorney Who Taught His Client a Clever Trick
From the Louisville Courier-Journal: A barrister of the city court is very much chagrined on account of a trick played on him by one of his clients, thereby causing him to lose a fee of \$25. Several days ago a man was arrested on a charge of "shooting at without wounding." This picturesque figure of the city court, who brags that the rich coloring of his nose had cost him a small-sized fortune, was consulted and consented to defend the man. Before the trial came up the barrister called his client from the court room and said: "Now, the only way you can get out of this scrape is to play insane. Whenever a question is put to you, instead of giving an intelligent answer, just wave your hand in front of your face and whistle. The judge will at once adjudge you insane, and, of course, you will be all right." The man consented to play insane.

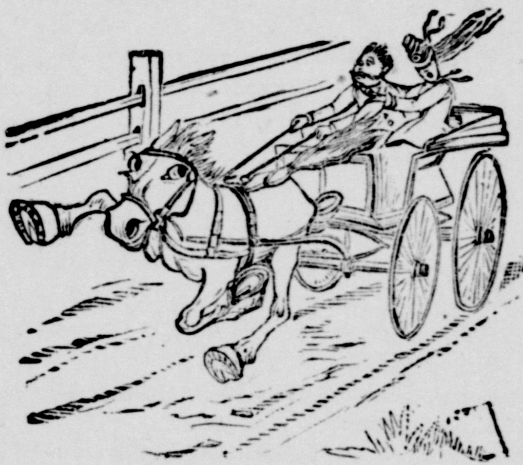

and took his seat on the stand. "What is your name?" asked one of the attorneys. The defendant looked idiotic, waved his hand and then whistled. Everybody in the court room began to laugh. Question after question was asked the man, but he answered all of them by waving his hand and whistling immediately afterward. "I adjudge you insane," said the judge. "Ah, what did I tell you," said the barrister, walking over to his client and congratulating him. That was a magnificent play. I will charge \$25 for defending you and would like to have my money now." The alleged insane man looked worried and scratched his head. He never said a word, but waved his hand through the air, gave a short, shrill whistle, and bade the attorney a fond adieu.

ELASTIC STARCH has been before the people of the United States for twenty-three years and is without doubt the greatest starch invention of the nineteenth century. Last year it sales reached the unprecedented number of twenty million packages. It is prepared upon scientific principles by men who have had years of practical experience in fancy laundering. It makes ironing easy, restores old summer dresses to their natural whiteness, and imparts to linen a beautiful and lasting finish. It is the only starch manufactured that is perfectly harmless, containing neither arsenic, alum, or any other substance injurious to linen, and can be used even as a baby powder.

A PRETTY SCREEN.

One Which Can Be Easily and Inexpensively Made at Home.

Soft pine wood panels of the desired size are cut by a carpenter and are then covered by stretching velours, denim or any plain colored, durable material tightly across one side, tacked into place, and the reverse side covered with any good lining for the part of the screen not intended to show, says the Philadelphia Times. The next step in the process is to cut stiff brown paper panels the size of the wooden ones, and on them draw in charcoal a simple outline, conventional pattern. If one is not original enough to do this alone, ask some friend to draw one, or copy some good design from an art magazine. The center panel should be the most prominent, while the side ones each have the same design, reversed to suit the branches of the screen and in its main features harmonizing with the center one. When this is done, lay the paper on the panel, tack it in place and along each line of the pattern tack in gently upholstering nails, arranged carefully at equal distances.

These should be indicated by pencil marks if one has not a correct eye. When this is done the paper is torn out from beneath the nails, consequently too tough paper should not be used, and each nail is then carefully driven home with a hammer until it sinks into the body of the material itself, giving a very rich metallic effect, for slight cost and little ingenuity. This style of screen is particularly well suited to dining rooms or halls, and may be made almost as effective without a framework, using the plain wooden panels hinged together after the work on them is completed.

X RAY SPECTACLES.

An optician has constructed X-ray spectacles for everybody's use. This device, if possessed of the penetrating power claimed for it, will make concealment outside of metal walls, a farcical effort. The most hidden secrets of physical imperfections, no matter how carefully guarded beneath linen, wool and silk, will be exposed as clearly to the gaze of the X-ray fiend as if exhibited before a magnifying glass. Walls of brick and stone will become as transparent as glass, and as a result, to secure privacy in hotels, boarding houses and other buildings the walls must have a metallic lining of iron, steel, tin or zinc. Without such eye-proof lining the occupants of a room would have no protection against the prying eyes of the curious supplied with X-ray glasses.

Suppose for an instance that a man in a hotel should have his curiosity excited as to what was going on in the adjoining room, all he would have to do would be to adjust to his eyes the X-ray glasses, turn on the current of his pocket battery, when the walls would virtually melt away, revealing all as clear as day. With this device in general use it would be as necessary to have all public buildings eye-proof as well as fireproof.

It has been suggested that modern women shield themselves by wearing a bodice and skirt of alumina that would be as light in weight as clothes, and so durable as to last a lifetime. Some such protection would be indispensable, for it is easily to be imagined how horrifying it would be to a lady on the street to find that she was being ogled by an X-ray fiend.

Easy.

This is a day of all sorts of advertising competitions. One of the oddest is reported from England by the London Telegraph:

A traveling circus recently paid a visit to Clitheroe, and as an attraction, offered a prize to the man who could, as the Lancastrians term it, "pull the ugliest mug."

The rules laid down were that each person should have "three tries." Competition ran high, some of the contortions being horrible to behold. After all had done their best, the clown, who acted as judge, coolly confronted a man sitting in the audience, who was noted for his ugliness, and said:

"That's won't the prize, owd mon."

"Me?" said the astonished individual; "wha' aw won't tryin' for!"

"That'd no need to try," said the clown; "tha's won't it wout."

His Real Worth.

The spirit of thrift which pervades, or used to pervade, New England, is amusingly illustrated in a remark made once by a Vermont farmer. He had been seriously ill in midsummer, but his strong constitution stood him in good stead and he quickly rallied. On being asked in the autumn how he was feeling, he said, cheerfully:

"Oh, I'm fair to middling now, thank ye; but anyway it don't make so much difference, seeing the farm's pretty well slicked up. If I'd died in haying or harvesting time, it would have been full fifty dollars' damage to me." Then, after a thoughtful interval, he added: "Come to think of it, that's too low a figger—sixty dollars would be nearer."

Over the Phone.

"Yes, this is Maud. Oh, is that you, George? Well, what did papa say? What's that? You didn't mind what he said? Well, what did he do? Good gracious! Did he? And you can't sit down? Where are you now, George? In the hospital? Dear, dear!"—Cleveland Plain Dealer.

An Answer to Prayer.

While Stanislaus Tarback, aged 52, was on his knees in his home at Hazelton, Pa., praying for protection during a severe storm, he was struck by lightning and instantly killed.

CURIOUS LANDS IN FLORIDA.

A Subterranean Passage Which Is Enveloped in Mystery.

Payne's prairie, three miles south of this city, says the Gainesville Sun, covers an area of 50,000 acres. A large proportion of the prairie is now covered with water, but there are thousands of acres around the borders of the lake which has been formed on which horses and cattle graze. There is no way of estimating the number of cattle, but there are many thousands, and they are in fine condition. The prairie, or savanna, which it really is, occasionally goes dry, the water passing out through a subterranean passage called the sink. Where the water goes to has never been determined. When the sink is open the lake goes dry, and when the outlet becomes gorged or choked a lake from five to seven miles wide and about eighteen miles long is formed. When the waters of the lake suddenly leave it thousands of alligators, snakes, fish and turtles are left with nothing but mud for their places of abode. The fish and turtles perish, but the alligators and reptiles seek and find other quarters. For miles along the northern border of the lake there is a succession of sinks, averaging in depth all the way from twenty-five to 100 feet. Subterranean passages run in every direction, leaving the ground in the shape of a honeycomb. The ground is liable to give way at any time, creating a new sink. The scenery around the lake, especially on the north side, is unique and grand, and is an attractive feature to strangers who visit this city. The sink has for many years been a popular resort for citizens of Gainesville, who go there to fish, boat ride and in other ways enjoy themselves. It is said that this vast area of land could be drained at trifling expense and were it drained it would be the largest as well as the richest tract of productive land in Florida. It is for the most part a bed of muck. The land is owned by various individuals.

THE CHILD AND THE BEARS.

Since the legendary days of Romulus and Remus many instances have been recorded where beasts of prey, having opportunity, have refrained from harming a small child. The Pittsburg Dispatch cites an interesting incident of this character.

Little Helma Ursler wandered away from her home near Snowshoe, Penn., one day in the fall and was swallowed up in the wilds of the Alleghany mountains. The greatest alarm was felt, and for two days every man, woman and child of the neighborhood turned out to beat the woods.

On the third day four lumbermen found the little girl a mile and a half from her home in the dense wood, playing with two bear cubs. The men called to her, and with a glad cry she ran toward them. The two bear cubs began to whine, and a moment afterward a large female bear dashed out from the underbrush, evidently to dispute the right of the men to carry off her protegee.

The men had their axes, and after a hard struggle they dispatched the bear, and took the cubs for pets—a fine reward for the bear's care of the child? Fritz Yanser, one of the lumbermen, was badly lacerated in the arm by the bear's jaws. Helma was uninjured by her sojourn among the bears and was soon restored to her anxious parents.

King Whose Salary Is \$7.50 Per Day.

Until a few days ago there was but one king on the two American continents. Now he is suspended from his job. He is the King of the Mosquito coast, an unpleasant country, as its name sufficiently indicates, lying between Nicaragua and British Honduras. The Mosquito coast is under an English protectorate, the king's salary being guaranteed by Nicaragua. When in full enjoyment of his regal dignity he had a salary of \$5,000 a year. The king's name is Clarence. The Nicaraguans covet his dominions. His majesty and his chief advisers have been at a considerable disadvantage in all diplomatic negotiations owing to the fact that it is part of their court etiquette to be drunk on all public occasions. The king's state costume consists of an old but imposing full dress uniform which formerly belonged to a captain in the British navy. The republic has now refused to pay his pension, and he has appealed to England for support. He fled to Jamaica. There an allowance of \$7.50 per day was given him, pending the settlement of the question. On this sum he is living in luxury, surrounded by a few devoted courtiers.

New Way to Teach French.

A new system of studying a foreign language has been introduced by a Parisian teacher. Two thousand pupils of French schools have entered into a regular correspondence with the same number of English pupils, each side writing a weekly letter in the language of the other, but submitting it to the teacher before it is mailed. As a rule boys and girls are paired for the lessons.

Too Smooth.

"Why have you quit riding the bicycle with Miss Smoothly, Dick?" "She knows the town too well. She would pilot me to an ice cream parlor in the quietest residence district I could find."—Detroit Free Press.

Reflections.

"Every man has his price," said the man with the bald head and the worried air, "but it is a sad state of affairs when he marries and does not get it."—Exchange.

NOT USED TO HOTEL WAYS.

A Young Woman After Registering Gives the Clerk a Surprise.

She drifted into an uptown hotel by way of the woman's entrance. She was plainly, but neatly, clad, and did not look like a girl who was used to the system in operation at a big hotel. She had a bright, pretty face, and looked fresh and charming. The two clerks on duty eyed her curiously and exchanged comments about the girl. She hesitated a moment when she reached the office, but, after some little display of embarrassment, walked up to the desk and picked up a pen in a diffident manner. The clerk wheeled the book around so that the place for signatures was in proper position and waited. She chewed nervously at the end of the pen, then dipped it slowly in the ink with a great deal of pains and wrote:

"Miss Mary McClosky, 372 W. 93 st."

Then she eyed her effort approvingly and carefully laid the pen down. The clerk, who had been watching the operation with a good deal of curiosity, said:

"Room, miss?"

A flush mantled her face, but she said, sweetly, "Yes, if you please."

"Would you like a room with a bath?" asked the clerk, in a puzzled tone. Again she seemed embarrassed and hesitated, but finally said in a low tone:

"Yes, if you please. That would be very nice, and I would thank you very much."

"How much do you care to pay for a room?" said the clerk, as his eye swept the rack.

"Pay?" she said in sheer surprise. "Why? I didn't expect to pay anything. I got a job here today as a chambermaid, and I have just come down."—New York Tribune.

A New Bicycle Word.

The latest word in bicycle lore is "stunt." Webster defines "stunt" as "To hinder from growing to the natural size; to prevent the growth of; to stunt; to dwarf; as, to stunt a child; to stunt a plant." Bicyclists use the word as a synonym for "trick." Thus, to ride on one wheel is a difficult "stunt." The new meaning for the word is of very recent birth. It is extensively used in the cycling columns of eastern papers.

Sure of His Revenge.

"Here, you!" said the officious citizen, grabbing the scorching. "Aren't you going to apologize to that man you knocked down?" "Me? No. He'll get his even all right. Don't you know he is a trolley motorman?"—Typographical Journal.

.. HARD TO HIT ..

An Indian to be shot must be taken un-awares and this same quick intuition is ever present with him, whether he is in danger from the bullet of an enemy, or the equally deadly germ of some fatal disease. In the former case, at the least movement of the foe he dodges, dives, plunges or jumps and escapes unscathed. In the other instance he is quick to perceive by a loss of flesh, sleep or appetite, unnatural restlessness and pains or lack of energy, a sallow or blotched skin, a bad breath, indigestion, susceptibility to colds and numerous other symptoms, that he is in the toils of some malady that will terminate fatally unless every precaution is taken at once, and he loses no time. He takes such medicines as he knows will effect a cure, remedies used for centuries by his people, carefully compounded from roots, herbs, barks and gums of their own gathering, and the result is a speedy return to health and a long life of happiness. The most famous of these Indian medicines which has effected thousands of marvelous cures is the well known

Every Statement We Make

Regarding our goods we can substantiate, many of them strong, but none too strong. We tell you an article is of high order and that it is very low priced, you can believe it. Our grocery experience dates over long years. Our business is large; it is growing immensely. Truthful statements about goods the masses want, and at the right prices, increases trade. We always look for bargains.

One Great Big Bargain-- Javanese Coffee, 10c lb. Package.

It's all right. Quality and flavor O. K. We know or we would not tell you so. It's the finest package Coffee on the market. No competition at the price. It is as fragrant as higher priced Coffee.

Cool Mornings and Buckwheats

Almost the whole breakfast-- Buckwheat Cakes ---for nine out of ten families. New England Self Rising Buckwheat, 10c a package, 3 for 25c, or a large package for 20c.

A Good Smoke at 5c, for men only....

"GOLD BOND" CIGAR. Hard matter to find a really good Cigar at 5c that suits everybody. "Gold Bond" will suit the critics. It burns right, tastes right, smells right. No bitter taste as you smoke it. The best 5c Cigar we ever put in our case, and we have handled many of them; it's almost of 10c material.

People are Becoming Enlightened.

By the Leader's location in Janesville. The sales show it. The crowds of purchasers each day is evidence that the public is realizing the difference in the purchasing power of a dollar to what the same coin bought before the Leader's opening in the city. It is really wonderful what a dollar will buy. You can't really tell the full extent of its power until you visit the Leader. Merchandise of all kinds never sold so cheap as now in the city. No store ever handled the high class of goods at the same price the Leader does; a veritable hurricane to high prices in every line. The sales show the business. Sixty-five stoves and ranges sold the past week. Remarkable, you think, but the prices and makes did it. Sunshine and Acorn Stoves. Thirty-two chamber sets sold the past week: prices did it. Twenty-nine complete sets of decorated dishes sold the past week; prices did it. Eleven trunks sold the past week; half prices did it.

Gloves,
Lamps,
Dusters,
Bird Cages,
Stove Pipe,
